TECHNICAL SKILLS

Python / Django	Advanced
AI / Agents / LLMs	Advanced
Backend / APIs	Advanced
Rust	Intermediate
React / TypeScript	Upper-Int.
Software Architecture	Advanced

STACK

Django	FastAPI	NestJS	React
Next.js	PostgreSQL	Redis	
Docker	Railway	RAG	LLMs
Pinecone	Git	REST APIs	

LANGUAGES

Spanish — Native
English — B2 (TOEFL certified)
German — A1 (in progress)

STRENGTHS

Problem-solving	Critical thinking
Adaptability	Product thinking

PROFILE

Software engineer (in training, 5th semester) focused on **applied artificial intelligence**: autonomous agents, automation, RAG and LLMs, on a solid backend foundation in Python and Rust. I build custom solutions —from a production ordering bot to microservice architectures— solving real problems with new technology. Bilingual, adaptive and results-driven. Seeking internship or development opportunities to deliver real technical value.

EXPERIENCE

Software Engineer — Freelance 2024 — Present
AI agents, automation and custom backends

- Build custom AI agents and automation systems for clients and my own products.
- Design tailored backends (Django/DRF, NestJS) and integrate AI APIs.

Trabix — Ordering system (bot + backend + dashboard) Bot in production
Lead developer · Rust + TypeScript

- WhatsApp ordering bot in **Rust** for a real business: conversation state machine, order & checkout flow, PostgreSQL. Dockerized on Railway.
 - Backend (NestJS, CQRS, WebSockets) and admin/seller dashboard (Next.js) completing the system.
- Rust · NestJS · Next.js · PostgreSQL · Redis · Docker · Railway

Multi-agent AI & SaaS systems In progress
Developer · Python + agents

- Multi-agent system with specialized agents communicating with each other, each handling a different task.
 - Multi-model AI SaaS: an assistant with persistent memory and integration to the user's own tools.
- Python · LLMs · RAG · Pinecone · OpenClaw

Veterinary clinic web app Project
Backend Developer

- Django/DRF backend: 8 modules, 20+ endpoints, 15+ data models. JWT authentication.
- Python · Django · DRF · PostgreSQL · JWT

Ambassador portal (Trabix ecosystem) Project
Full-Stack Developer

- Management platform with admin/ambassador roles: production batches, commissions and rate-limiting. Deployed to production.
- Next.js · TypeScript · Supabase · Upstash Redis

EDUCATION

Software Engineering
CUE Alexander von Humboldt
2024 — Present · 5th semester

High School
Colegio Franciscano San Luis Rey
2016 — 2023 · Armenia, Quindío

CERTIFICATIONS & AWARDS

TOEFL — English B2 · American School Way · 2022 — Credential 1092456501

Academic merit scholarship (20%) — GPA >3.8 in grades 10–11.
